Australian National University

UNIVERSITY OF CANBERRA

Status: Open

As finances allow, Linux Australia offers a grants program in support of free and open source systems and communities in Australia and New Zealand. Grants applicants must be members of Linux Australia. In 2023 there are two grant categories on offer.

- Project Grants (\$10k pool available): funding for open source, open data, open government, open education, open hardware and open culture projects.
- Community Grants (\$10k pool available): funds to assist community groups re-establish themselves following the interrupts of the last couple of years.
